- Communications Skills
- Problem Solving

## Experience

### Internee

Karachi Shipyard & Engineering Works, Karachi, Pakistan

Oct 2020 - Nov 2020

## Education

### NED University of Engineering & Technology

B.E in Electrical Engineering

2021

Electrical Engineering Electronics, Electrical Power

### Adamjee Government Science College

Intermediate/A-Level

2017

Science, PRE ENGINEERING

Percentage: 82%

### Hamdard Public School

Matriculation/O-Level

2015

Science

Percentage: 84%

## Projects

### 7 Level Multilevel Inverter

The output of this inverter is in multiple steps which helps to increase the power output and also helps in reduction of harmonics. It has its application especially under high power system especially it will be beneficial in solar power plant.

### Bluetooth control Car with obstacle detection

It is a small toy car which is control by bluetooth through mobile app. We have also fitted ultrasonic sensor in it which stops the car incase of detection of any obstacle at specific distance in front of car.
