### PROFILE

I have completed my bachelor's degree in chemical engineering. I like to work hard and be committed to my objective; it helps me learn something new and develop new skills. I have always been motivated to achieve my goal and currently, my goal is to achieve more working experience to become an expert person in Data Analysis.

### SKILLS

Content Writer

Strategic Planning

Problem Solving

Research

Accountant

Team player

Adaptive

Punctuality

Critical Thinking

Innovative

Analyzer

### COMPUTER SKILLS

Microsoft Office

Python

MY SQL

Jupyter Notebook

Matlab

Aspen & Hysys

Microsoft Visio

Google Sketch Up & AutoCad

### LANGUAGE

English

Urdu

Pashto

Persian

### EXPERIENCE

#### Data Analyst of Industry Production (2016-2017)

- I had performed Data Analyst on the process and raw material properties. The analysis allows me to optimize and reduce side products. I have also improved the maintenance schedule and safety practice thus delivering better performance in the factory by analyzing the data for maintenance and safety training schedule and result.

#### Data Analyst Marketing and Salesmanship (2018- 2019)

- I had performed data analysis to improve the performance of the marketing and salesmanship. Data of sales, products, and territory was used to find the specific field where inadequate work was performed. The analysis showed that the salesman requires guidance on where to sell specific products in the region. That improvement increased the sales and allowed the company to better understand the market.

#### Salesman (2018- 2019)

- I have been hired by a local importer to sell stationery products. As a result, I had to deal with all of the major stationery suppliers and sellers. This experience allowed me to develop special communication skills such as Persuasion, Explainers, Empathetic, Situation Management, etc.

#### Accountancy (2018- 2019)

- I had a job at a LED Bulb product store. My duties were to handle all the financial support, records collected, and sold at the store. I was also responsible to present our store at different events, which I handle perfectly every time.

#### Content Writer (2019-2021)

- I had written many and different types of content like Technical, Academic, Blog, Articles, and Social media posts. In my experience I had written on Product review, Advertisement, Purchase product guidance, Health guidance, Technological development, Morality and ethical issues, Historical details, Social political issues, etc.

### DATA ANALYST EXPERTISE

- MS Office
- Python
- Jupyter Notebook
- Graphs & Charts
- Reviewer
- Researcher

### EDUCATION

**2009 - 2013** Bachelor of Chemical Engineering  
Curtin University Malaysia

**2009-2011** Forman Christian College  
Lahore, Pakistan

### CUMULATIVE GRADE POINT AVERAGE

CGPA 3

### HOBBIES

Internet

Exercise

Researching

Movies
