## Summary

I'm an incredibly passionate and industrious person. Working with a hundred percent focus is one of my unique fondness. Coaxing the toughest and stern minds and dealing with them courteously despite reaching the edge of patience is truly my favorite thing. I've always tried my best to prove myself being productive and impressive and beneficial to where I belong, (i-e platform, company, people) Being honest with the work and company is the only key to achieving unbelievable respect, honor, and name.

## Projects

### International Relations - Support

The project International Relations - Support was global-wide in which we had gathered more than 10,000 dealers around the world, their stocks within their consent. There were many new things to learn and to explore regarding the way of dealing with customers and dealers, especially from the USA who are very careful and smart with their business and can't take any skeptical or scam accents so my team and I successfully made it possible with and we have done it in order to develop the business from both ends.
