Muhammad Rizwan Elahi

Data Analyst

Karachi Division

Summary

Results-driven Power BI Developer with 2 years of experience specializing in Power BI development and Microsoft Dynamics 365. Proficient in creating interactive and visually appealing reports and dashboards to drive data-driven decision-making. Skilled in utilizing various data sources, including SSRS SSL Reports, MySQL, Excel, Quickbooks, and Google Sheets, to extract and analyze data. Experienced in developing complex DAX measures and columns to derive meaningful insights. Proven ability to establish relationships between data tables and utilize Power Query Editor for data manipulation and cleansing. Strong understanding of Microsoft Dynamics 365 to integrate and visualize data for enhanced business intelligence. Collaborative team player with excellent problem-solving skills and a keen eye for detail. Stay updated with the latest industry trends and advancements in Power BI and Microsoft Dynamics 365 to deliver high-quality solutions.

Experience

Arthur Lawrence

Data Analyst

September 2022 – Present

Karachi, Sindh, Pakistan

MICROSOFT POWER BI:

Power BI Report development.

1. Proficient in developing interactive and visually appealing reports and dashboards using Power BI.
2. Demonstrated expertise in utilizing various data sources such as SSRS SSL Reports, MySQL, Excel, QuickBooks, and Google Sheets for data extraction and analysis
3. Skilled in creating complex DAX measures and columns to derive meaningful insights from raw data.
4. Experienced in establishing relationships between data tables to ensure accurate and efficient data analysis.

5. Proficient in using Power Query Editor for data manipulation, transformation, and cleansing to ensure data integrity and quality.
6. Proven ability to understand business requirements and translate them into effective data visualizations and reports.
7. Strong analytical skills with the ability to identify trends, patterns, and anomalies in data.
8. Excellent problem-solving skills and attention to detail to ensure accuracy and reliability of reports.
9. Ability to work collaboratively in cross-functional teams and effectively communicate complex technical concepts to non-technical stakeholders.
10. Stay updated with the latest industry trends and advancements in Power BI to continuously enhance reporting capabilities.

Ghazi Brothers

Software Developer

February 2022 – September 2022

Karachi, Sindh, Pakistan

MICROSOFT POWER BI:

Power BI Report development.

1. Building Analysis Services reporting models.
2. Developing visual reports, KPI scorecards, and dashboards using Power BI desktop.
3. Connecting data sources, importing data, and transforming data for Business intelligence.
4. Analytical thinking for translating data into informative reports and visuals. Capable of implementing row-level security on data along with an understanding of application security layer models in Power BI

5. Should have an edge over making DAX queries in Power BI desktop. Expert in using advanced-level calculations on the data set.
6. Responsible for design methodology and project documentaries. Should be able to develop tabular and multidimensional models that are compatible with data warehouse standards.
7. Very good communication skills must be able to discuss the requirements effectively with the client teams, and with internal teams.

MICROSOFT DYNAMIC AX:

1. Perform Microsoft Dynamics AX Compliance Center configuration, administration, and maintenance.
2. Management and review of security logs and table permissions framework (TPF)
