PH-VII, Board of Secondary Education, Karachi, Pakistan (1992)

Certificate of Secondary Education

## Experience

Started career in programming in the year 2000 and am working on PHP since the year 2007.

### **Team Lead - PHP**

SYBRID PRIVATE LIMITED - A Lakson Group of Company (2021 - 2022)

Sybrid (Pvt.) Ltd. is a Lakson Group company that stands among the premier business process outsourcing (BPO) companies maintaining its origin in Pakistan. Delivering superior customer services for over 8 years, Sybrid is a business process outsource offering an integrated suite of services that supports an expansive array of customer facing solutions. Sybrid launched in 2008 and is currently serving in three countries.

### **Assistant Manager**

THE AGA KHAN DEVELOPMENT NETWORK - d-Health Resource Center (2015 - 2021)

The Aga Khan Development Network (AKDN) is a network of private, non-denominational development agencies established by the Aga Khan to improve the quality of life of people and societies in which they live particularly in the sub-Saharan Africa, Central and South Asia, and the Middle East. The Aga Khan University is one of nine agencies in the Aga Khan Development Network.

### **Senior Software Engineer**

CO OPERATIVE COMPUTING (2013 – 2015)

I got exposure to working on LINUX, did a lot of coding on the LAMP stack via vagrant with technologies including Laravel, Sublime, Vagrant, Git, REST APIs, a little of Joomla module development and lots of fun.

### **Senior Software Engineer**

SBT JAPAN (2011 – 2013)

As a key member of the development team, involved in day-to-day function, I was responsible for developing, testing, debugging, diagnosing and fixing the company's website. It was necessary to ensure that the web application performance was according to the defined specifications and remained within established guidelines and quality standards. Absolutely no downtime of the website was tolerable since a huge traffic of customers was actively attached and thus high rate of new customer registrations from around the globe were in progress.

### **Senior PHP Programmer**

HORIZON TECHNOLOGIES (2009 – 2011)

Here I worked on a property buying and selling website primary built from scratch to facilitate the 2 parties and bring them together.

## **PHP Programmer**

2INTERACT, INC [DUBAI] (2008 – 2009)

Worked as PHP Programmer in the Dubai based company for development of Sage Interact HR module which included fully web-based application developed as a Rich Internet Application (RIA) that supported multiple databases and operating systems to give to the clients the freedom of choice. Here I also worked on system performance improvement with database that contained more than 700 tables. Technologies that were utilized included smarty template engine, jQuery, AJAX, CSS and XML. Researched and integrated new Web 2.0 Components to an in-house existing system (DHTMLX Components, AJAX, Fusion Graphic Charts). Developed system features such as job classification, recruitment management, position budgeting, employment/hiring, leave management, attendance tracking, compensation management and payroll generation.

## **Internet Programmer**

INNOVA eBIZ TECHNOLOGY (2004 – 2007)

Here I analyzed, designed, and developed web applications and client-server applications using PHP4.3. I also developed user interface (front-end) and administration area with panels and controls (back-end) for management of the end-user modules.

## **Web Developer**

MAGSNET (2000 – 2004)

Here I used to integrate code with the layout of the website according to the internet standards; worked on techniques to enhance website performance by fine-tuning code and code snippets; coach customers regarding administration panel usage and admin privileges; and maintain website after delivery to the client and provide customer support regarding technical problems.
