PERSONAL PROJECTS

Designed Online Store Database on MSSQL

- It is one of our project in Database management system course. In which I designed database tables by using requirement gathering, ERD, normalize the schema with 1st, 2nd and 3rd NF techniques. and at the end wrote queries to create tables.

Setup C# for ERP

- In this project, I setup C# on Crystal report server to design and deploy local server by using C# Window form.
