- Key responsibility to take follow up on the issues which are reported by the client's and coordinate with teams to resolve the issues, to achieve client's satisfaction.

Projects

Dress Perception	Nov 2020 - Jul 2021 (8 months)
------------------	--------------------------------

Company: UAAR

Tools: Visual Studio 2019, SQL Server 2012, ASP.Net MVC

i'm developing a better platform for **online shopping**.Where Consumers can get full information about the product with its reviews being passed by the existing users. If one wants to buy a product he/she is no longer limited to asking the friends and families because there are many products reviews on the web which gives opinions of the existing users of the product.
Our purpose is to design an **online clothe-shopping website** where users can purchase the selected product.

Pharmacy Management System	Feb 2019 - Jun 2019 (4 months)
----------------------------	--------------------------------

Company: UAAR

Tools: Visual Studio Code, SQL Server 2012

I developed a **Pharmacy management system web-based application** that was implemented in **PHP using MySQL** as a database. The project was designed for medical stores to manage the various inventories and details of items, customers and suppliers, as well as the staff (cashiers, managers, and pharmacists) working in the store.
