

# Ahmed Raza Qadri

Software and Web Developer

 (+92) 306-566-8869

 ahmed.r.qadri@gmail.com

Software developer with over 4 years of experience in full stack development. I can implement effective server-side business logic. My greatest strength is ability to quickly adapt, learn and good coding practices keeping code re-usability in mind.

## Experience

### 2020-Present **PHP Developer**

Zam Solutions Islamabad

- CodeIgnitor MVC development
- Maintaining and providing support for different projects
- Working on call center and batch call processing solution

### 2017-2018 **PHP Developer**

MSolutions Islamabad

- Wordpress and core PHP development.

### 2016-2017 **Junior Full Stack Developer**

Delimit Islamabad

- Debugged and optimized existing PHP websites and improving performance up-to 40%.
- Worked alongside front-end developers to implement CRM API into designed pages.
- Wrote a PHP library that reduced client-side implementation of API to 3 line of code.
- Implemented and wrote CRM documentation for 3-D Secure payment API.

## Education

2017 **BS in Computer Science**, Virtual University of Pakistan

### Training:
